Green Inova released the New Multipurpose LED High Bay, which delivers exceptional illumination performance by using Nichia LEDs, the efficacy up to 135lm/W, energy saving more than 80%.

The luminaire can be used as UFO compact high bay which is easy for shipment and installation, as well with Aluminum Reflector or Acrylic Lens to create classic housing and more uniform lighting distribution.

Suitable for suspension by the means of a hook or additional universal mounting bracket for surface mounting. Pipe mounting is also available.

IP65 rating allows these lamps to be used in dusty and damp environments, such as woodworking shops, sandblasting, grain silos, car washes, laundries, industrial kitchens, and more.

Using Meanwell or UL/cUL approved driver, we have more confidence to assure the quality of the products.

They are rated for a long 100,000-hour lifespan and are backed by Green Inova's 6-year limited warranty.

#### Features:
