Gen. II Linear High Bay
(2LHB Series)

Green Inova's 2nd Gen. Linear LED High Bay is precisely designed to replace conventional fluorescent high bay fixtures, with a Post painted steel housing and PC cover in slim profile, creating a compact smooth appearance. Moreover, it is light weight with excellent thermal management.

Utilizing 3030 LED and UL listed driver, 80W/ 100W/ 150W/ 200W/ 310W in output up to 134lm/W, it's ideal for commercial and industrial lighting applications like markets, malls, workshops, warehouses, stadiums, etc. Furthermore, it's UL/cUL listed with 5 years warranty, maximizing customers' rebate incentives.

Multiple functional options are available, including dimming drivers, motion sensor, photocell sensor, 347-480V, Mounting option Chain + V brackets, surface mount bracket, pendant mount bracket, wire guard option.

Dimensions

Note:
*200W has two versions/sizes:
2LHB200: 25.19x17.71x1.65 in, 2FT,
2LHB200B: Bigger, 45.66x13.77x1.65 in, 4FT.

Features

- UL/cUL Listed
- High quality 3030 chips deliver up to 138lm/W
- 100-277V, 347-480V available
- Cold rolled steel heat sink, LED TC<75°C (@ 25°C ambient)
- Excellent thermal management ensures long life
- Unique modular design allows for ease of field maintenance
- Innovative high-tech design combines form with function
- Environmentally friendly powder coatings
- Multiple optics allowing for flexible designs
- 150,000 hours LED life, 5-year limited warranty
